GERMAN ARMY WELL FED ON MARCH

Great Herds of Cattle Are Driven Behind the Advancing Troops Is the Berlin Explanation.

[By Associated Press.]
Berlin, Aug. 9.—An account of the conditions under which the German and Austrian armies are advancing through the districts of Poland devastated by the Russians was given out by the Overseas News Agency Sunday as follows:

"The colossal scale on which arrangements were made to supply the armies caused a sensation in the towns evacuated by the Russians. Hundreds of thousands of troops between the Vistula and the Bug are being fed as well as if they were at home. Great herds of cattle are driven behind the advancing troops. The railroads were reopened speedily by the Teutons, furnishing supplies to men notwithstanding the Russians removed all such supplies and set fire to the villages before they retreated. The only representatives of neutral governments remaining at Warsaw are those of the United States and Norway.

"Prince Leopold of Bavaria received a tremendous ovation when he entered Warsaw. Citizens of neutral countries participated in the celebration. Crowds of Poles greeted the Germans as liberators. The people disregarded the order to leave the town before its evacuation. Families of peasants, driven by the Russians into Warsaw already have been sent back to their homes.

"There were similar scenes of popular rejoicing when the Germans occupied Ivangorod and Lublin, where large stores of flour and other materials fell into the Teutons' hands. The Germans promised that the new regime would be mild provided the people obeyed police regulations."
